SKILLS

- Flutter
- React (basics)
- Javascript (basics)
- Git
- App publish
- Html
- Css
- Figma (basics)

EDUCATION

B.SC.COMPUTER SCIENCE

C.Abdul Hakeem college of arts an science

2018 - 2021

M.C.A

Alagappa University karaikudi

pursuing graduation

PROFILE

I am a qualified and professional web developer with one years of experience in Flutter and website design. Six months of experience in React. Team player with an eye for detail.

EXPERIENCE

MOBILE DEVELOPER

Nanosoft

2022 - Present

- Designed and developed cross-platform mobile applications using Flutter framework.
- Utilized Flutter's state management capabilities such as BLoC and Getx patterns to manage application state.
- Integrated RESTful APIs into Flutter applications using packages such as Dio and http.
- To secure a Mobile Application Developer role with an organization that values innovation and collaboration.
- Implemented navigation and routing within the application using Flutter's Navigator widget.
- Utilized Flutter's animation capabilities to create smooth and engaging user experiences.
- Worked with Firebase services such as Cloud Firestore and Cloud Functions to provide real-time data updates and serverless functionality.
- Utilized third-party packages from pub.dev to add additional functionality to applications, such as image processing, charts, and maps.

RESPONSIBILITY

- Developing high-quality, responsive mobile applications for Android and iOS platforms using Flutter.

- Writing clean, maintainable, and efficient code that is scalable and reusable.

- Collaborating with cross-functional teams including designers, developers, and product managers to deliver software solutions.

- Participating in code reviews, testing, and debugging to ensure the code meets the requirements and is free of errors.

- Keeping up-to-date with the latest trends and technologies in mobile application development and incorporating them into the development process.

- Providing technical expertise and guidance to the team members and helping to resolve any technical issues.

- Ensuring the application's performance, security, and usability are optimized.

- Developing and maintaining documentation related to the project, including the codebase, design documents, and technical specifications.

PROJECTS

- B2C Technician (Mobile).
- B2C Consumer (Mobile).
- Dashboard (web).
- Smart Attendance (Mobile).
- Helpdesk (web).
